CANADIANA 1975

During 1975 the text and indexes for Parts I-IV, VII and VIII of CANADIANA were computer-produced, and published as Section 1 of CANADIANA 1975. Parts V and VI were manually produced and published as Section 2. The annual cumulated index provides Indexes A, B and C to Section 1 in the first volume and Index A to Section 2 in Volume 2.

Index A

This index attempts to provide every type of specific entry under which a publication may be sought. It includes authors (personal and corporate), titles, added entries (i.e. associated names such as editors, joint authors, etc.) and series. It also includes cross references from headings not used and, where relevant, histories of corporate bodies occurring as authors.

Index entries refer to the month, year and part of CANADIANA in which the main entry for the item sought is to be found, followed by the Dewey Decimal Classification number in the case of classified items. Thus, for Parts I-V reference is to the month, year and part, followed by the Dewey number, and the specific item sought will be found under the Dewey number subarranged alphabetically by entry. For Parts VI, VII and VIII, which are not classified, reference is to the month, year and part only and the item sought will be found in its alphabetical place by cataloguing entry. Detailed guidance for each part follows.

Part I Monographs (fully catalogued and classified)

Reference is to the Dewey Decimal Classification number. Items are subarranged alphabetically by cataloguing entry. Classification numbers occur in the following order:

000-999

j000-999 Juvenile

Example: Young, Noreen. The valiant tailor. Sept. 1975 Pt. 1 C812'.5'4

(This item will be found in the September 1975 issue, Part I, under classification number C812'.5'4, subarranged alphabetically by the cataloguing entry, in this case the author: Young, Noreen)

Part II Theses in microform

Reference is to the principal classes of the Dewey Decimal Classification. Items are subarranged alphabetically by cataloguing entry.

Example: Walker, Dennis Martin. Strength training and human knee stability. Sept. 1975 Pt. 2 610

(This item will be found in the September 1975 issue, Part II, under classification number 610, subarranged alphabetically by cataloguing entry, in this case the author: Walker, Dennis Martin)

Part III Serials (fully catalogued and classified)

Reference is to the Dewey Decimal Classification number. Items are subarranged alphabetically by cataloguing entry.

Example: Community services in Metropolitan Toronto. Sept. 1975 Pt. 3 361'.0025'713541

(This item will be found in the September 1975 issue, Part III, under classification number 361'.0025'713541, subarranged alphabetically by cataloguing entry, in this case the title: Community services in Metropolitan Toronto)

Part IV Pamphlet file material

Title entry only appears in the index. Reference is to the principal classes of the Dewey Decimal Classification.

Example: The Metric system illustrated and simplified. Sept. 1975 Pt. 4 380

(This item will be found in the September 1975 issue, Part IV, under classification number 380, subarranged alphabetically by title)

Part V Sound recordings (fully catalogued and classified)

Reference is to the Dewey Decimal Classification number. Items are subarranged alphabetically by cataloguing entry.

Example: Springhill. [Phonodisc] Sept. 1975 Pt. 5 784.3'06'12

(This item will be found in the September 1975 issue, Part V, under classification number 784.3'06'12, subarranged alphabetically by cataloguing entry, in this case the title: Springhill)

Part VI Films and Filmstrips Produced in Canada

This part is not classified and items will be found in alphabetical order by title.

Example: The Drylanders (*Motion picture*) Sept. 1975 Pt. 6

(This item will be found in the September 1975 issue, Part VI, arranged alphabetically by title)

Part VII Publications of the Government of Canada

This part is not classified and items will be found in two lists, English and French, arranged alphabetically by cataloguing entry (generally the department or issuing body, although entries may be also under personal author, or especially in the case of serials, under title)

Example: Canada. Treasury Board. Official languages and you. Sept. 1975 Pt. 7

(This item will be found in the September 1975 issue, Part VII, English Section, arranged alphabetically by cataloguing entry: Canada. Treasury Board)

Part VIII Publications of the Provincial Governments of Canada

This part is not classified. Reference is first to the provinces (the ten provinces are arranged in alphabetical order). Items are subarranged under each province alphabetically by cataloguing entry (generally the department or issuing body although entries may be also under personal author, or, especially in the case of serials, under title). Quebec publications are arranged in two lists, English and French.

Example: British Columbia government publications; monthly checklist. Sept. 1975 Pt. 8 British Columbia

(This item will be found in the September 1975 issue, Part VIII, under British Columbia, subarranged alphabetically by cataloguing entry: British Columbia government publications; monthly checklist)

Indexes B and C

The alphabetical list of the subject headings used in Parts I and III, refers to the date of the issue and to the Dewey Decimal Classification number of the entry on which the subject heading appears. This list is not intended to be an index to the Dewey Decimal Classification but uses the DDC number only as a location for the entry. If the subject heading is used on more than one entry then it may refer to more than one DDC number. As the subject heading refers only to the DDC number and not to a specific item it may be necessary for the user to search a number of entries which have the same DDC number but which have different subject headings.

CANADIANA 1975

En 1975, le texte et les index des parties I-IV, VII et VIII de CANADIANA étaient produits par ordinateur et formaient la Section 1 de CANADIANA 1975. Les parties V et VI étaient produites manuellement et formaient la Section 2. Vous trouverez dans le premier volume de l'index récapitulatif annuel les index A, B et C à la Section 1 et dans le deuxième volume l'index A à la Section 2.

Index A

Cet index offre, autant que possible, toutes les entrées spécifiques sous lesquelles on peut chercher un ouvrage. Il contient des entrées aux auteurs (personnels et collectifs), aux titres, aux vedettes secondaires (i.e. certains noms associés aux publications tels que les rédacteurs, coauteurs, etc.) et aux collections. L'index comprend aussi des renvois des formes non utilisées et dans certains cas l'historique des collectivités-auteurs.

L'entrée dans l'index réfère au mois, à l'année et à la partie de CANADIANA dans laquelle se trouve la publication cataloguée, suivie de l'indice de la classification décimale de Dewey lorsqu'il y a lieu. Donc, pour les parties I-V, la référence est d'abord au mois, à l'année et à la partie dans laquelle la notice paraît, suivie de l'indice de la classification décimale de Dewey; ainsi, dans cette partie, la publication se trouvera sous l'indice Dewey selon l'ordre alphabétique de la vedette principale. Pour les parties VI, VII et VIII qui ne sont pas classifiées, la référence est au mois, à l'année et à la partie seulement et la publication requise se trouve dans l'ordre alphabétique selon la vedette principale. Des renseignements détaillés sur chaque partie suivent ci-dessous.

Première partie. Monographies (cataloguées et classifiées en détail)

On réfère à l'indice de la classification décimale de Dewey. Les publications sont classées par ordre alphabétique de la vedette principale sous l'indice Dewey. L'ordre de la classification se trouve comme suit:

000-999

j000-999 Pour la jeunesse

Exemple: Olivier, Estelle. Comment vous le dire? Sept. 1975 Ptie 1 C841'.5'4

(Cette publication se trouve dans la livraison de septembre 1975, première partie, sous l'indice de classification C841'.5'4, sous-classée par ordre alphabétique de la vedette principale qui est dans ce cas-ci l'auteur: Olivier, Estelle)

Deuxième partie. Microcopies de thèses

On réfère aux principales classes de la classification décimale de Dewey. Les publications sont classées par ordre alphabétique de la vedette principale sous l'indice Dewey.

Exemple: Leduc-Park, Renée M. L'incubation est-il un nouveau roman. Sept. 1975 Ptie 2 840

(Cette publication se trouve dans la livraison de septembre 1975, deuxième partie, sous l'indice de classification 840 et sous-classée par ordre alphabétique de la vedette principale qui est dans ce cas-ci l'auteur: Leduc-Park, Renée M.)

Troisième partie. Publications en série, cataloguées et classifiées en détail

On réfère à l'indice de la classification décimale de Dewey. Les publications sont classées par ordre alphabétique de la vedette principale sous l'indice Dewey.

Exemple: Aïe! Sept. 1975 Ptie 3 378.713'84

(Cette publication se trouve dans la livraison de septembre 1975, troisième partie, sous l'indice de classification 378.713'84, sous-classée par ordre alphabétique de la vedette principale qui est dans ce cas-ci le titre: Aïe!)

Quatrième partie. Brochures, dépliants, etc.

Dans l'index apparaît seulement l'entrée sous le titre. On réfère aux principales classes de la classification décimale de Dewey.

Exemple: Le Système métrique international. Sept. 1975 Ptie 4 380

(Cette publication se trouve dans la livraison de septembre 1975, quatrième partie, sous l'indice de classification 380, sous-classée par ordre alphabétique de titre)

Cinquième partie. Enregistrements sonores (catalogués et classifiés en détail)

On réfère à l'indice de la classification décimale de Dewey. Les ouvrages sont classés par ordre alphabétique de la vedette principale sous l'indice Dewey.

Exemple: Aïmons-nous. [Disque] Sept. 1975 Ptie 5 784.3'06'12

(Cet enregistrement se trouve dans la livraison de septembre 1975, cinquième partie, sous l'indice de classification 784.3'06'12, sous-classé par ordre alphabétique de la vedette principale qui est dans ce cas-ci le titre: Aïmons-nous)

Sixième partie. Films et films fixes réalisés au Canada

Cette partie n'est pas classifiée et les ouvrages se trouvent par ordre alphabétique de titres.

Exemple: Le Combat des sourds (*Film cinématographique*) Sept. 1975 Ptie 6

(Ce film se trouve dans la livraison de septembre 1975, sixième partie, classé alphabétiquement sous son titre)

Septième partie. Publications du gouvernement du Canada

Cette partie n'est pas classifiée. Les publications se trouvent en deux listes, une anglaise et une française. Ces listes suivent l'ordre alphabétique de la vedette principale (généralement le ministère ou le corps administratif; en certains cas la notice peut être sous l'auteur personnel, ou, surtout lorsqu'il s'agit de périodiques, sous le titre)

Exemple: Société centrale d'hypothèques et de logement. Sept. 1975 Ptie 7

(Cette publication se trouve dans la livraison de septembre 1975, septième partie, section française, classée par ordre alphabétique de la vedette principale: Société centrale d'hypothèques et de logement)

Huitième partie. Publications des gouvernements provinciaux du Canada

Cette partie n'est pas classifiée. On réfère premièrement à la province (les dix provinces sont classées par ordre alphabétique). Sous chaque province, les publications se trouvent en ordre alphabétique selon la vedette principale (généralement le ministère ou le corps administratif; en certains cas la notice peut être sous l'auteur personnel, ou, surtout lorsqu'il s'agit de périodiques, sous le titre). Les publications du Québec se trouvent en deux listes, une anglaise et une française.

Exemple: Québec (Province) Haut-commissariat à la jeunesse, aux loisirs et aux sports. Ski nordique et de randonnée. Sept. 1975 Ptie 8 Québec

(Cette publication se trouve dans la livraison de septembre 1975, huitième partie, sous Québec, liste française, classée par ordre alphabétique de la vedette principale: Québec (Province) Haut-commissariat à la jeunesse, aux loisirs et aux sports)

Index B et C

La liste alphabétique des vedettes-matière utilisées dans les parties I et III renvoie à la date de la livraison et à l'indice de la classification décimale de Dewey qui figure en tête de la notice où est inscrite la vedette-matière. Cette liste n'a pas pour but de servir d'index à la classification décimale de Dewey. Elle utilise l'indice de la CDD seulement pour permettre de localiser la notice. Si la vedette-matière est employée pour plus d'une notice, elle renverra peut-être à plus d'un indice. Puisque la vedette ne réfère qu'à l'indice de classification décimale de Dewey et non pas à un ouvrage particulier, il sera quelquefois nécessaire à l'usager de parcourir un certain nombre de notices qui ont le même indice de classification mais des vedettes-matière différentes afin de trouver la notice qu'il cherche.

FILING ARRANGEMENT IN CANADIANA

Prior to the September 1975 issue of CANADIANA the entries in Index A were arranged according to the Library of Congress filing rules¹ as modified by the National Library of Canada. The use of the National Library modifications to the Library of Congress filing rules was abandoned beginning with the September 1975 issue. The following list has been prepared to alert the users of CANADIANA to the areas in which changes will occur in the filing of entries in Index A.

The left-hand column contains the National Library rules which were followed in earlier issues; the right-hand column contains the corresponding Library of Congress rules which will be followed in this issue and in subsequent issues.

National Library modification

a) Modified letters are filed as modified, e.g., ö is filed as oe.

b) Numerals in titles, etc. are filed as spelled out in words in the language of the entry. Dates are filed chronologically.

c) Signs and symbols ordinarily spoken as words are filed as spelled out.

d) Abbreviations are filed as spelled out.

e) Hyphenated words are filed as one word except when the hyphen is significant, i.e. when the hyphen serves as the sole separator between two discrete words.

f) Initials which appear entirely in upper case letters (e.g. UNESCO) are treated as separate words even if not separated by marks of punctuation or spaces. Acronyms and initials with only the first letter in upper case (e.g. Unesco) are filed as one word.

g) Names with prefixes are filed as one word. Names beginning with M', Mac and Mc are filed as if spelled Mac. Arabic names beginning with al, Al, Āl, el, El (with or without hyphenation) are filed as one word.

Library of Congress rule

a) Modified letters are to be treated like their plain equivalents in the English alphabet. Thus all diacritical marks and modifications of recognizable English letters are treated as if they did not exist, e.g., ä, á, â, ó, í, ñ are filed as a, o, l, n. (LC rule 1.1.1)

b) Numbers expressed in digits or other notation (e.g. roman numerals) precede letters and, with few exceptions, they are arranged according to their numerical value. According to this rule, all filing entries beginning with numerals appear before entries beginning with the letter A. Numbers expressed as words are filed alphabetically. (LC rule 1.2)

c) Nonalphabetic signs and symbols are generally ignored in filing and the following letters or numerals are used as the basis of arrangement. (LC rule 1.3)

d) Abbreviations are arranged exactly as written. (LC rule 10)

e) Words connected by a hyphen are always treated as separate words. This rule applies even when the first part of a hyphenated word is a prefix that sometimes appears as an integral part of a word. (LC rule 12)

f) Initials separated by marks of punctuation and/or spaces are treated as separate words. Acronyms and initials not separated in any way are treated as single words regardless of capitalization. (LC rule 14)

g) A prefix that is part of the name of a person or place is treated as a separate word unless it is joined to the rest of the name directly or by an apostrophe without a space. (LC rule 15)

¹Library of Congress. Technical Processes Research Office. *Filing Arrangement in the Library of Congress Catalogs; an operational document* prepared by John C. Rather. Provisional version. Washington, March, 1971.

h) Elisions in French are filed as two words.

h) Elided words, possessives, and other words with apostrophes are arranged as one word, disregarding the apostrophe, except that when the first part of the elision is an initial article in the nominative case it is generally ignored. (LC rules 20 and 20.1)

As a result of these changes, it may be necessary for the user of CANADIANA to look under more than one form to find a desired item. For example, a title known only in its spoken form "One hundred and three hikes in Southwestern British Columbia" may be found at the beginning of the index because its written form is "103 hikes in Southwestern British Columbia". The user is advised to check under alternative forms whenever they might have been used for an unlocated item.

CLASSEMENT DANS CANADIANA

Avant la livraison de Septembre 1975 de CANADIANA, les entrées dans l'Index A étaient arrangées suivant les règles de classement de la Library of Congress¹ telles que modifiées par la Bibliothèque nationale du Canada. Avec la livraison de septembre 1975, nous avons abandonné les règles de classement modifiées de la Bibliothèque nationale. Nous avons préparé la liste ci-dessous afin d'attirer l'attention des usagers de CANADIANA sur les changements survenus dans le classement des entrées de l'Index A.

La colonne de gauche comprend les règles de la Bibliothèque nationale utilisées dans les livraisons antérieures; la colonne de droite comprend les règles de classement de la Library of Congress correspondantes qui serviront à l'avenir.

Modifications de la B.N.

a) Les lettres modifiées sont classées comme telles, i.e.: ð est classé comme oe.

b) Les nombres dans les titres de livres, etc. sont classés comme s'ils étaient écrits au long dans la langue de la vedette. Les dates sont classées chronologiquement.

c) On classe les signes et les symboles ordinairement prononcés comme des mots de la même façon que s'ils étaient écrits en toutes lettres.

d) On classe les abréviations comme si elles étaient écrites au long.

e) On classe les mots composés comme étant un seul mot, sauf si le trait d'union est significatif: i.e. si le trait d'union sert à séparer deux mots complets.

f) On traite les initiales toutes en majuscules formant un mot (i.e. UNESCO) comme des mots séparés même si les lettres ne sont pas séparées par un signe de ponctuation. Les acronymes et les mots dont seule la première lettre est une majuscule (i.e. Unesco) sont classés comme un seul mot.

g) On classe comme un seul mot les noms commençant par un préfixe. On classe les noms commençant pas M', Mac et Mc comme s'ils s'épelaient Mac. Les noms arabes commençant par al, Al, Āl, el, El (avec ou sans trait d'union) sont classés comme un seul mot.

Règles de la L. of C.

a) On traite les lettres modifiées comme leur équivalence de l'alphabet français. On ne tient pas compte des modifications des lettres françaises ni des signes diacritiques. Ainsi, ä, á, â, ó, í, ñ sont classés comme, 'a, o, l, n. (Règle L.C. 1.1.1.)

b) Les nombres exprimés en chiffres romains ou autres précèdent les lettres et, sauf quelques rares exceptions, sont arrangées suivant leur valeur numérique. D'après cette règle, toutes les entrées commençant par des nombres sont classées avant les entrées commençant par la lettre A. Les nombres employés comme mots sont classés par ordre alphabétique. (Règle L.C. 1.2)

c) On ne s'occupe pas des signes et des symboles pour le classement mais des lettres ou des nombres qui suivent. (Règle L.C. 1.3)

d) Les abréviations sont classées telles qu'elles sont écrites. (Règle L.C.10)

e) Les mots composés sont considérés comme deux mots séparés. Cette règle s'applique même lorsque la première partie d'un mot composé est un préfixe qui est parfois partie intégrante d'un mot. (Règle L.C. 12)

f) On traite les initiales séparées par des signes de ponctuation et/ou des espaces comme des mots séparés. Les acronymes et les initiales non séparées d'aucune façon sont classés comme un seul mot sans égard aux majuscules. (Règle L.C. 14)

g) On traite comme un mot séparé un préfixe qui fait partie d'un nom de personne ou de lieu, sauf s'il est joint au reste du nom directement ou par une apostrophe sans espace entre les deux. (Règle L.C. 15)

¹ Library of Congress. Technical Processes Research Office. *Filing Arrangement in the Library of Congress Catalogs; an operational document* prepared by John C. Rather. Provisional version. Washington, March, 1971.

h) En français, on classe les mots comportant un élision comme s'ils étaient des mots séparés.

h) On classe un mot comportant une élision avec le mot suivant, comme s'il ne s'agissait que d'un seul mot, sans tenir compte de l'apostrophe. Lorsqu'un article dont la voyelle est élidée est le mot initial de classement, on ignore sa présence. (Règles L.C. 20 et 20.1)

A cause de ces changements, l'usager de CANADIANA devra probablement vérifier sous les différentes formes du mot pour trouver ce qu'il cherche. Par exemple, on trouvera un titre connu seulement par sa forme verbale i.e. "Cent femmes devant l'avortement" au début de l'index, à cause de sa forme écrite "100 femmes devant l'avortement". On conseille donc fortement à l'usager de vérifier chaque mot initial de classement qu'il ne trouve pas, sous toutes les formes possibles.
